PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in JavaScript, RESTful API development, and modern frontend architectures. Experienced in building AI-powered platforms, school ERP systems, integrating third-party APIs (including AWS S3 and Resend), and designing responsive, high-performance applications. Passionate about creating efficient, user-centric digital products and solving complex engineering challenges.

SKILLS SUMMARY

- Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS
- Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, Role-Based Access Control (RBAC)
- Database: MongoDB, SQL, Supabase, Prisma ORM
- Cloud & Infra: AWS S3 (Document Management), BullMQ, Resend API (Bulk Email & Queues)
- Version Control: Git, GitHub, Bitbucket
- Tools: Visual Studio Code, Postman
- Other Skills: REST API Integration, SSE API Integration, Responsive Design, Agile/Scrum

WORK EXPERIENCE

Full Stack Developer | Ishvara Tech Consulting LLP

March 2025 – Present

- Developed and deployed end-to-end applications, leveraging Node.js and Express.js for robust backend services and React.js for dynamic user interfaces.
- Integrated complex third-party services and APIs, ensuring seamless data flow between frontend and backend systems.
- Integrated complex RESTful APIs and managed application state for data retrieval and manipulation.
- Collaborated actively within an Agile team environment, participating in daily standups and rigorous code reviews.

MERN Stack Intern | Techzex Pvt Ltd.

- Developed full-stack web applications under guidance, focusing on the MERN stack.
- Implemented reusable front-end components using React.js to enhance modularity.
- Managed backend services and routing with Node.js and Express.js.

PROJECTS

ECSE – School ERP Platform (Client Project)

- Built a full-featured School ERP platform to streamline academic and administrative workflows for schools.
- Implemented a role-based access control (RBAC) system supporting multiple user roles (admin, staff, teacher, student) with distinct permissions and dashboards.
- Designed and integrated document management using AWS S3 for secure upload, storage, and retrieval of student and staff documents.
- Architected multiple user flows (admission, attendance, fee management, communication) to support diverse stakeholder journeys within a single platform.
- Implemented bulk email sending using the Resend API combined with a queue-based system (BullMQ) for reliable, large-scale delivery of notifications and announcements.

LeadNova – Lead and Marketing Automation Platform (Client Project)

- Engineered a robust lead and marketing platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented complex email campaign scheduling functionality utilizing BullMQ to manage queues for reliable, large-scale email distribution.
- Developed a modern, user-friendly interface that allows users to effectively manage lead data and schedule automated campaigns.

Campaign Pulse – Multi-Platform Ad Marketing Manager (Client Project)

- Contributed to the development of a multi-platform campaign and ads marketing project focused on handling major ad channels (e.g., IQM platform, Meta, X Ads).
- Utilized the MERN stack for application logic while leveraging Supabase (PostgreSQL) for structured data storage and real-time synchronization.
- Managed application state across the front-end and back-end to handle complex advertising data streams and reporting.

HireMitra – AI Recruitment Platform | Full Stack Developer (Client Project)

- Developed a comprehensive AI-powered recruitment platform connecting organizations and candidates through intelligent automation; showcased at the India AI Summit 2026 for its innovative AI-driven hiring solution.
- Developed an AI interview system with real-time video interviews and automated candidate evaluation.
- Engineered a job-matching algorithm achieving ~85% matching accuracy using multi-criteria filtering.
- Built scalable REST APIs using Node.js, Express.js, and PostgreSQL with <200ms response time.
- Integrated OpenAI GPT-4 for resume parsing, reducing manual screening time by ~50%.

EDUCATION

Master of Computer Applications (MCA) GIFT Autonomous College, Bhubaneswar	<i>2023 – 2025</i> <i>CGPA: 7.45</i>
---	---

CERTIFICATES

- MongoDB Certified Developer/Associate (Focus: MongoDB Overview, Document Model, CRUD, Indexing, and Data Modeling).
- Awarded the Gold Medal in Internship award at Techzex Software Pvt. Ltd., Bhubaneswar.
- MERN Stack Proficiency (Learned: ReactJS, NodeJS, ExpressJS, Bootstrap, MongoDB basics).

ACHIEVEMENTS

- Got the Gold Medal in Internship award at Techzex Software Pvt. Ltd., Bhubaneswar.
- Showcased HireMitra AI Recruitment Platform at India AI Summit 2026.
